CONSIGLI DI POSA / ADVICE FOR LAYING / VERLEGUNGS / CONSEILS POUR LA POSE /
 CONSEJOS DE COLOCACIÓN / РЕКОМЕНДАЦИИ ПО УКЛАДКЕ

* Consigliato per la posa a rivestimento di interni, si suggerisce la posa con colle poliuretaniche ed epossidiche. In caso di utilizzo di colle cementizie, si raccomanda l'accortezza di pulire immediatamente l'eccesso di colla sulla parte in vista con acqua ed una spugna morbida. È sconsigliato l'uso del listello in zone salmastre a forte concentrazione di atmosfere saline perchè soggetto a formazione di ruggine. Consigliamo anche di non utilizzare i listelli in condizioni di immersione continuativa.

Recommended for interior coverings, laid using polyurethane and epoxy adhesives. If using cement-based adhesives, clean off the excess glue immediately from the visible areas with a soft sponge. Listel tiles and inserts should not be used in brackish areas with a strong concentration of saline atmospheres (beaches, ports, etc), because they are subject to rust formation (pitting corrosion). We also recommend avoiding the use of the listel tiles in conditions where they are continually immersed in water.

Für die Verkleidung von Innenbereichen und bei Verwendung von Polyurethan- und Epoxyd-Klebern empfohlen. Im Falle einer Verwendung von zementklebern empfehlen wir, den überstehenden Kleber auf den sichtbaren Bereichen sofort mit Wasser und einem weichen Schwamm zu entfernen. Die Verwendung der Leiste/des Einlegers in Brackwassergebieten mit einer hohen Salzkonzentration in der Luft ist nicht empfehlenswert weil sich Rost bilden kann. Wir empfehlen die Leisten auch nicht in Bereichen zu verwenden, die ständig unter Wasser liegen.

Conseillé pour une pose en intérieur, il est préconisé d'employer des colles polyuréthaniques et époxy. En cas d'utilisation d'adhésifs à base de ciment, il est recommandé de bien nettoyer tout de suite l'excès de colle sur la partie en vue avec une éponge douce imbibée d'eau. L'utilisation du listel est déconseillée dans les endroits saumâtres à forte concentration d'atmosphères salines car il est sujet à la formation de rouille. En outre, nous conseillons de ne pas utiliser les listels dans des endroits immergés en permanence.

Está aconsejado para la colocación de revestimientos de interiores, recomendándose la colocación con adhesivos de poliuretano y epoxi. En caso de utilización de cemento-cola, se recomienda limpiar inmediatamente el exceso de adhesivo de la parte visible utilizando agua y una esponja blanda. Se desaconseja el uso del listelo/taco decorativo en zonas salobres con una fuerte concentración de atmósferas salinas, al estar sujeto a la formación de corrosión por picaduras. Se aconseja también no utilizar los listelos en condiciones de inmersión continua.

Рекомендуется для облицовки стен в помещениях; укладка выполняется на полиуретановый и эпоксидный клей. В случае применения клея на цементной основе следует немедленно удалять его избытки с видимых участков с помощью мягкой смоченной в воде губкой. Не рекомендуется применение бордюра/уголка в солеосодержащих средах с большой концентрацией соли в атмосфере, поскольку он подвержен образованию ржавчины. Также рекомендуем не использовать бордюры/ступени в условиях постоянного погружения в воду.
